DOCKETED

DEC 16 2008

December 15, 2008

Arizona Corporation Commission

Attention: Commissioner Kristin Mayes

I am writing this letter on behalf of the Arizona Public Service Co. to encourage you to approve the interim rate hike and expedite approval of the increase requested. How can you expect quality, dependable electrical service from a company that isn't covering costs and in jeopardy of losing its credit rating? If not corrected, it seems to me that this could have very serious consequences to the electrical customers of APS. Their community involvement is a benefit to all who live in Arizona. That has been greatly compromised.

I am a customer of APS and an electrical contractor who works with them. We do electrical service new installations and repair/replacements for customers of APS. They are very professional to work with and we do not want to see that compromised due to insufficient funds. A failure on their part would have devastating consequences to the city of Phoenix and the state of Arizona.

We are not a client or vendor of APS and do not stand to gain financially in any way from an increased rate.
